Junior Quality Assurance Engineer

We are steadily growing and looking for a talented and driven QA Engineer to join our team and contribute to our success story.

At BGO Software, we are committed to continuous learning and growth. We foster a culture of knowledge sharing and skill development, aiming to unlock your potential and provide a platform to showcase your abilities.

This role is suitable for Junior professionals in the QA area or with software development background who wish to switch their career path.

We'll support you throughout your learning journey and, in return, we value your motivation and eagerness to explore new challenges.

The Company

At **BGO software** we make health digital by empowering our customers to deliver their digital health products and solutions through our premium services.

Our history
Started as a boutique IT company in 2008, in less than 3 years we grew to become a leading IT company with 100+ employees, serving clients from around the globe across several verticals. After more than 12 years of experience within the healthcare industry, we set our main direction. Today, **BGO Software** is the **digital health lab** that aims to improve and **save lives today through technology**.

Our expertise & services
We have extensive background in the development of clinical research systems, eHealth solutions (web and mobile health applications) and GMP validated systems for pharmaceutical & biotech companies.

Our people
Our culture is defined by our people. We are an innovation team that values mutual trust, creativity, systems thinking, agility, and adaptability. We are creating a movement in the IT industry so that more people choose the professional path towards saving and improving lives through technology.
