

Technical Lead

We are searching for an experienced Tech Lead with 3+ years of experience in leading teams of at least 5 people.

In this role, you will be challenged to provide your team with the support and technical expertise to secure the projects` success. Mentorship, excellent communication skills, and good development practices are main features of the role. Your experience should contribute for the team`s dynamics and improvement leading by example.

The Company

OVER 10 YEARS OF EXPERIENCE IN DIGITAL HEALTH

At **BGO software** we make health digital by empowering our customers to deliver their digital health products and solutions through our premium services.

Our history

Started as a boutique IT company in 2008, in less than 3 years we grew to become a leading IT company with 100+ employees, serving clients from around the globe across several verticals. After more than 12 years of experience within the healthcare industry, we set our main direction. Today, **BGO Software** is the **digital health lab** that aims to improve and **save lives today through technology**.

Our expertise & services

We have extensive background in the development of clinical research systems, eHealth solutions (web and mobile health applications) and GMP validated systems for pharmaceutical & biotech companies.

Our people

Our culture is defined by our people. We are an innovation team that values mutual trust, creativity, systems thinking, agility, and adaptability. We are creating a movement in the IT industry so that more people choose the professional path towards saving and improving lives through technology.
